

Tees, Esk & Wear Valley NHS Foundation Trust

“We have and continue to co-create our transformed mental health services in line with the feedback from our service users and carers and recommendations from the Healthwatch Stockton-on-Tees report.

“This included a diverse representation across Tees Valley, the report of which can be found here: [TV Healthwatch Report TEWV Community Transformation 2021\\_0.pdf \(healthwatchmiddlesbrough.co.uk\)](https://healthwatchmiddlesbrough.co.uk/TV-Healthwatch-Report-TEWV-Community-Transformation-2021-0.pdf)

“Within each area we aim to set up and establish lived experience voices to further inform our place-based delivery. We have read and understood the recommendations of the Stockton report and will continue to ensure our services are accessible for all populations and individual needs through community voices and our continued work with Healthwatch Stockton-on-Tees.”
